

Universal PC Lock RL40AH

Description

An all-in one locking kit that secures the computer, flat panel monitor and peripherals. This kit is designed for Desktop PCs with security slots. (For desktop PCs with a standard locking loop tab, see the RL40). It is quick to install and does not require any tools.

For large installations, the keys can be keyed alike or different, with master keys available.

Contents

- 1 - 7 Pin Tubular Lock with peripheral trap
- 1 - 1.9m Braided Aircraft Steel Security Cable
- 2 - LCD/ Chassis Adapter Hook
- 1 - Anchor Point with Screws for attaching system to a piece of furniture
- 2 - Keys
- 1 - Glue

Benefits

- Universal for all PC's, docking stations, LCD's, printers and other small office equipment.
- Protects the system internals, monitor and wired peripheral components from theft.
- Eliminates the need to purchase an additional lock to secure the monitor.
- Anchors to desk.
- Easy installation.
- Keying options and Master Keys available.
